

Do you have an interest in the environment, your local community and the future of water in our region?

Barwon Water has a number of advisory committees who assist us with our planning and projects. We recognise the importance of ensuring these committees consist of a diverse group of individuals from various backgrounds to ensure the work we do meets the needs of our whole community. We're inviting young people between the ages of 16 and 25 to be part of our committees on a volunteer basis.

You may be interested in joining either our standing Customer Advisory Committee or participating on one of our project specific advisory groups that are more relevant to your interest or area. No previous experience is required. The time commitment is approximately 4 x 2 hour meetings per year.

Join us for

Exposure behind the scenes

Make a difference to the environment

Advancing personal skills

On Country experience with First Nations

Real world experience

Climate action
